How to use XLUXES ProcureBeyond base makeup series

XLUXES ProcureBeyond Serum Foundation & Face Powder (refill)

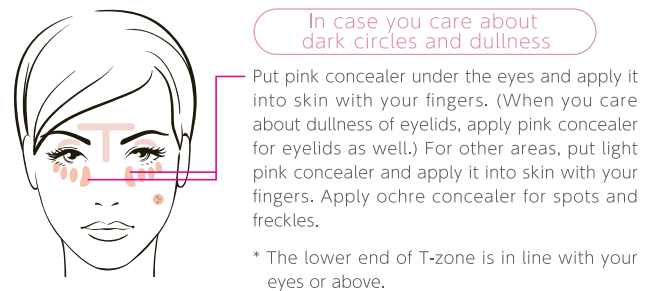

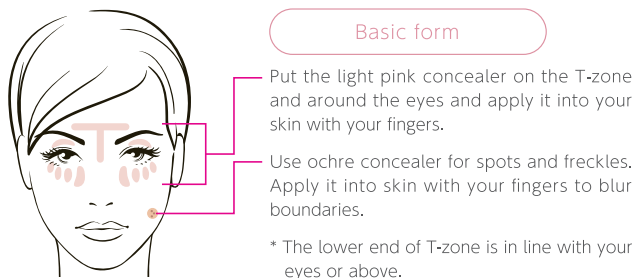

Take an appropriate amount (2-3 pushes) of the serum foundation on your hand and apply it to the entire face evenly from the inner side (cheeks) to the outer side of the face. Apply it again to areas that you want to cover up. After that, put the face powder onto the dedicated puff and let excess powder fall inside the cap. Then, fold the puff in half and apply the powder well to the face. Apply the powder little by little to the entire face smoothly from the inner side (cheeks) to the outer side of the face. When fixing your makeup, use the powder after removing sweat and sebum with a facial tissue.

XLUXES ProcureBeyond Makeup Base & Powdery Foundation

Put the pearl-sized (0.6-0.8 cm in diameter) makeup base on the back of the hand and apply it to the entire face evenly from the inner side (cheeks) to the outer side of the face. To cut off ultraviolet rays effectively, apply an sufficient amount of it evenly and repeat it again and again. We recommend to apply it again when you wipe your skin with a towel. Then, take an appropriate amount (approx. half size of the puff) of the powdery foundation onto the dedicated puff and apply it on the entire face evenly from the inner side (cheeks) to the outer side of the face.

XLUXES ProcureBeyond Lighting Concealer & Covering Concealer

Put three types of concealers on your face based on following instructions. Apply them into your skin by pushing lightly with your fingers to create firm, radiant and beautiful skin.
